

DHRISYA BOBAN

Machine Learning & Data Science Enthusiast

Kochi, Kerala | dhrisyaboban2004@gmail.com | +91 9778147995 | LinkedIn | GitHub

CAREER SUMMARY

M.Sc. Data Science student (Christ University, 2026) with hands-on experience in Python, machine learning, deep learning, and data analysis. Proven ability to develop and train ML/DL models, extract insights from complex datasets. Experienced in building CNN-based classification systems and applying NLP techniques for text analysis. Eager to contribute to AI-powered cloud solutions and collaborate with cross-functional teams in a fast-paced research environment.

SKILLS

Machine Learning & AI: Scikit-learn, Deep Learning (CNN, ANN), Predictive Analytics, Pattern Recognition, NLP (text preprocessing, tokenisation, sentiment analysis)

Programming: Python (Pandas, NumPy, Matplotlib, Scikit-learn), SQL, R Programming (basic)

Data & Visualisation: Data Collection, Cleaning & Analysis, Power BI, Tableau, Microsoft Excel

Soft Skills: Data Storytelling, Cross-functional Collaboration, Presenting Analytical Models, Attention to Detail

RELEVANT PROJECTS

X-Ray Baggage Threat Detection using CNN

Deep Learning | Python | Computer Vision

- Developed and trained a Convolutional Neural Network (CNN) to automatically classify X-ray baggage images and detect security threats, improving detection accuracy through iterative model tuning.
- Analysed model performance metrics (accuracy, precision, recall) and prepared visual reports communicating findings to stakeholders in a clear and concise manner.
- Implemented a predictive output system delivering pictorial and audio alerts upon threat detection, integrating the ML model into an end-to-end pipeline.

Stock Volatility Analysis – Using ARIMA, GARCH

Financial analysis | Python

- Correlation Analysis on real market data from 2020 to present.
- Applied ARIMA and GARCH models to analyse time-series patterns and estimate stock volatility.
- Visualized stock trends, returns, and volatility to identify patterns and support data-driven interpretation.

EDUCATION

M.Sc. Data Science — Christ University, Bangalore 2026 – 2028

B.Sc. Physics — St. Albert's College, MG University, Ernakulam, Kerala 2022 – 2025

CERTIFICATIONS

Data Science — 6 Month Course — Soften Technologies, Kadavanthra, Kerala 2024

- Trained to apply Machine Learning algorithms to real-world datasets to extract insights and build predictive models.
- Hands-on experience with data preprocessing, model training, performance evaluation, and result interpretation.
- Participated in group seminars and projects simulating corporate data workflows and cross-functional team collaboration.

AVAILABILITY

Available for remote / offline internship.
